

Westfield Recreation

Junior Scientists Science & Technology Workshops!

All New Lessons for Returning Students!

Conducted by:

At Smartycat Kids, we're all about making learning science fun! Using fully hands-on experiments, we cover many areas of basic science, including: biology, chemistry, physics, engineering, technology, earth science, and green science. **Would your child enjoy activities such as:**

*****Creating chemical reactions that ooze, fog, erupt, or change color ... Exploring physical forces with air rockets, airplane gliders, or a hair-raising static electricity generator ... Designing and constructing engineering projects such as model roller coasters, bridges, or skyscrapers ... Building robots or RC vehicles, Exploring outer space, Studying live animals ... and much more! *****

Then this is the program for them! Sign up today!
(All new lessons and activities for returning students!)
